LETTER OF REFERENCE FOR CTO S.A.

SHIPBUILDING SCIENCE AND TECHNOLOGY INSTITUTE "SSTI" In Hanoi, Vietnam has co-operate in several international projects together with CTO S.A.

Last common project signed at August 18th 2008 No. PL/002159650/062903 for Design, Supervision, Delivery and Activation of Research Centre is in the execution so far and concern design, delivery, installation, start-up and training several research tools and equipment.

In September 2010 CTO S.A. delivered to SSTI elaborated by itself technical and workshop design of subsonic wind tunnel.

Elements of the tunnel and research equipment was delivered in period November 2010-April 2011. Wind tunnel was assembled, calibrated and tested and was commissioned in Poland.

We are very satisfied with the design, manufacturing quality and operational parameters of wind tunnel. Also the delivery was made at the appointed time.

This statement is presented based on the request from the CTO management.

Director Dinh Khắc Minh
